UpgradeTool Operation Manual

1. To find UpgradeTool in the CD and install it, then run it, see below picture:

2.Click "IP Search", select the DVR's IP address and port, then click "Browse", see below pictures:

ҧ Upgrade Tool	
NO. IP Address Port Destribe	
<	
IP Search Add Device Edit Device Upgrade	
FileName: Bro	owse

3.To Browse the Logo(bmp), see below pic:

Then click "Upgrade", finally you will see Upgrade successful, at the same time the dvr is rebooting and you can see your LOGO now like below pictures:

🚓 Upgrade Tool 🛛 🔀								
NO.	IP Ad	dress	Port	Destribe				
⊡ 1	192.168.1.10		34567	Upgrade successful				
<						>		
IP Se	arch	Add De	evice E	dit Device	Upgra	de)		
FileNa	me:	C:\Doc	uments an	d Settings\Ad	fministr-	Browse		

Pls Note: New version upgrade process is the same as Logo upgrade.
